

STANDARD OPERATING PROCEDURE

Title: Condition-Based Maintenance Assessment

Document ID: SOP-CBM-001

Purpose

To prioritize maintenance using equipment condition data.

Inputs

- Vibration
- Temperature
- Current
- Pressure
- Historical failures

Risk Categories

Critical: Risk Score > 80

High: Risk Score 60-80

Medium: Risk Score 40-60

Low: Risk Score < 40

Recommended Actions

Critical: Immediate maintenance

High: Schedule within 7 days

Medium: Monitor closely

Low: Routine inspection
